COMPANY OVERVIEW

Texas Digital Asset Management Group Inc (TDAMG) is a Dallas software company that designs, builds and operates software platforms for regulated industries: automotive retail, childcare, electronic signature and AI voice. One accountable team takes work from requirements through code, hosting and support.

CORE COMPETENCIES

Custom software and SaaS · web applications and multi-tenant platforms, built, hosted and maintained in-house

Cloud operations · server, network and storage management on Microsoft Azure and Amazon Web Services

Database administration · PostgreSQL design, tuning, migration, backup and recovery

Integrations and APIs · data feeds, webhooks and system-to-system integrations

Electronic signature · signing workflows with audit certificates on our own signing engine

AI voice and messaging · AI agents that answer calls and messages and log every interaction

Compliance automation · state agency forms and contracts generated from system data

Security engineering · TLS with HSTS, strict content security policy, SPF, DKIM and DMARC

DIFFERENTIATORS

Production platforms we operate ourselves, not prototypes

US-hosted on Microsoft Azure

Built for regulated work: state forms, audit trails, per-state data isolation

One accountable team from requirements to operations
